Everyone's a part of the final design?

If it worked that way, it would be fine.

If we're all involved, then what about me?

Is there a part that I can't see?

I dream of being a part of it, too,

But I just can't make my dreams come true.

Please show me how I should begin;

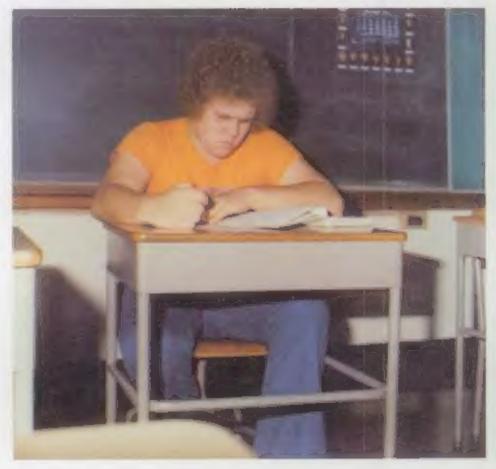

I cannot find where I fit in.
Someone tell me what to do;
I want to be a winner, too.

I want to run and pass them by, And stretch my hands to touch the sky.

Maria Sutherland

Before all elements are placed as one, Unimportant everything is done. For undivided is our line — Everyone's a part of the final design.

Dorene Strelinski

If men will move on,
Then each must align —
For each shares a part
of the final design.

Laura Magone

Let us be together as a whole or as one,

But

never let us forget our individuality.

For this, above all, must be preserved for as long as we shall live.

Linda Williams

Diane Broggi

More than one creative idea is necessary; Everyone's a part of the final design.

Michele Tokar

What you are and
what you do
are a part of something bigger
than yourself.

Kristyn Meucci

Instead, the millions — in perfect arrangement — make up the heavens.

As each one of us is just a fragment of mankind's beauty.

George Crompton

If everyone
contributes
His own special part
and personality.
The intricate design
of the world
will be complete.

Amy Power

We join together to form mankind, and you're the one I stand behind.

A new door will open soon — it won't be leading to the moon. but leading out to life.

Karın Gottselig

Each person has his own special place in the world.

No one else can fill your place better than you can.

You are important just because you are you!

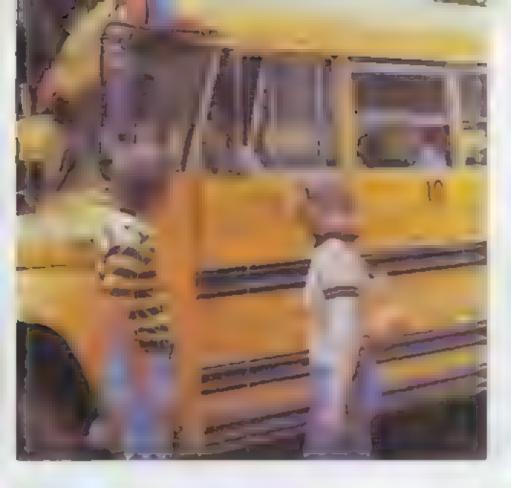

Denise Ferbas

Each person has a design,
One that is separate and unique
from every other individual.
But each individual comes together
to become part of a larger
and more complex design.

Carol Thayer

Look at the people around you — All of them doing their own thing, going their own way, seemingly uninterested in other people.

Jill Gibson

"We are a People, one tiny fragment of the immense mosaic of life... The ALL does not belong to us. We belong to the ALL."

- Ben Logan

The final design is what we are — All of us together.

Our tomorrows rolled away unfolded in the past they lay Now we call them yesterday, when memories were made Locked forever in the past, today has journeyed there so fast We've only memories to grasp of life's role that we have played. Still, today it's not too late, for magic moments we'll relate, if we will just leave out the hate, as to the past they fade

When you are born, you know little: So you mean little to the design.

Each year, you learn something:

Your piece takes shape, and

As you finish high school,

You begin the next part of your piece,

And the next part, and the next part. Until, in return,

Your piece of the puzzle fits into the design. And you are a part of the final design.

Arithmetic

Arithmetic is where numbers fly like pigeons in and out of your head.
Arithmetic tells you how many you lose or win if you know how many you had before you lost or won.

Arithmetic is seven eleven all good children go to heaven — or five six bundle of sticks.

Arithmetic is numbers you squeeze from your head to your hand to your pencil to your paper till you get the answer.

Arithmetic is where the answer is right and everything is nice and you can look out of the window and see the blue sky—or the answer is wrong and you have to start all over and try again and see how it comes out this time.

Have you been a dedicated member of the Class of 78? I am sure that each of you has been dedicated to something. You may be dedicated to dodging all responsibility that comes your way, to a policy of just getting a passing grade, or to a school life of going along with the crowd and having fun.

On the other hand, you may be dedicated to a career of usefulness which will give many people the benefit of your education, common sense and future contributions.

You need to be dedicated to your family, teachers, the Class of 78, your state and nation, and your own good name.

Good I uck seniors and remember that dedication helps make the difference between the successful person in life and the unsuccessful follower.
